QUOTES

It often takes more courage to change one's opinion than to stick to it.
Geoffrey F. Abert

Judging a person does not define who they are. It defines who you are.
Wayne Dyer

I am not what happened to me, I am what I choose to become.
Carl Jung

You only have to do a very few things right in your life so long as you don't do too many things wrong.
Warren Buffett

Focus is a matter of deciding what things you're not going to do.
John Carmack

We should be rigorous in judging ourselves and gracious in judging others.
John Wesley

The true test of character is not how much we know how to do, but how we behave when we don't know what to do.
John Holt

There are two kinds of people, those who do the work and those who take the credit.
Try to be in the first group; there is less competition there.
Indira Gandhi

There is a difference between a dream and a goal. A dream is a gift you want to be given.
A goal is something you work to achieve.
Brian Knapp

We judge ourselves by our intentions. And others by their actions.
Stephen Covey

Never give up on what you really want to do. The person with big dreams is more powerful than one with all the facts.
H. Jackson Brown Jr.

The fool wonders, the wise man asks.
Benjamin Disraeli

I've seen how you can't learn anything when you're trying to look like the smartest person in the room.
Barbara Kingsolver

If someone is going down the wrong road, he doesn't need motivation to speed him up.
What he needs is education to turn him around.
Jim Rohn

Don't Believe Everything You Think!
Robert Fulghum

Introduction

Welcome to volume 19 of the ICE catalogue. Although we have kept the same format and design of the catalogue, we have some exciting new additions to the range which we hope will provide an increase in sales opportunities for our dealer network. An electronic soft copy of the catalogue is available for download on our website.

Logistics And Warehousing

We currently hold stock of all 6 models of the NDA range of supermarket refrigeration and freezers, in our Sydney warehouse, as well as third part logistics warehouses in Melbourne and Brisbane. This will hopefully make these units even more competitive as they are available to be collected without a freight charge, or delivered at local freight rates.

Website login to distributor area

We encourage all dealers and their staff to register in our distributor area on our website. This gives you access to be able to instantly check live stock, as well as receive freight quotes for single or multiple items to any post code in Australia. Some refrigeration, as well as a few of the very large items, are still not on this quoting system, so please email freight@internationalcatering.com.au if your selected item is not available.

Freight matrix for refrigeration

The freight matrix has proven to be nice and easy to manage, and as we did in the previous catalogue, all items that are not FIS to dealers, are marked with a S, M, L or L+. These codes refer back to the freight matrix, which will then provide the freight charge to your warehouse depending on where you are located.

Blender jugs are a consumable item and are not covered by the warranty on the motor. The manufacturer recommends replacing the jugs every 12 months. However this is a guide only and depends on usage, number of jugs in the system and washing methods. Jugs are dishwasher safe but NOT dishwasher proof. Washing in a dishwasher will significantly reduce the lifespan of the polycarbonate jug. Continuing to use jugs once the bearings are worn can result in damage to the motor which will void the warranty
